-  Master RxJS 6 without breaking a sweat
Udemy
-  Advanced React
Coursera
-  Kubernetes: Basic Architecture and First
Deployment
Coursera
-  Docker for absolute beginners
Coursera

SUMMARY

Overall 9.5 years of experience in front-end development and web technologies. Experience in architecting & building multiple products from scratch. Everlasting hunger to learn and grow.

WORK EXPERIENCE

Mimecast | Senior Software Engineer

July 2024 - Present

- Architected, designed, and led the overall approach for internationalization and localization strategy for our Nx monorepo, seamlessly integrating these capabilities across the core repository.
- Led multiple high-impact projects within the team with full ownership.
- Usage of AI tools to boost productivity.

Altimetrik | Intuit | Frontend Engineer

May 2023 - July 2024

- Ownership of typescript SDK which is the connecting dot to migrate products from V1 to V2 APIs.
- Setting up the standards for graphql typescript support and dynamic schemaTypes generation that eased dev efforts.
- Standardizing typescript documentation and API docs.
- Ownership of Playwright setup and automation.
- Codebase with UT coverage of 92%

EclecticIQ | Senior Frontend Engineer

May 2022 - May 2023

- SPOC for all AG-grid related technical evaluation & support.
- Delivered a critical feature for the Alpha release in the first few months of joining.
- Led the initiative to standardize AG-GRID usage with http-streaming API integration that reduced 50% of development iterations for the next integration.
- Building an XDR product from scratch.

ANIRUDH UK

SENIOR FRONT-END ENGINEER

AWARDS RECEIVED

- Client appreciation at Intuit for notable contributions across multiple projects
- 2 Commit awards at JiffleNow in the year 2018 and 2019 for my contributions towards the new features and deliveries
- Synchron Spot Award 2020, for contributions towards the team's release
- 1st & 2nd position in Synchron photography competition for different categories

Synchron | Senior Software Engineer | Frontend

Oct 2019 - May 2022

- Led a team of 3 UI members.
- Pioneered the migration of JSF UI to Angular 12, enhancing product appeal and functionality.
- Conceived and spearheaded the transition from NGX-charts to Highcharts to significantly enhance our data visualization capabilities.
- Ownership of project planning, setting up the groundwork, tool selection, lazy loading, route planning, and error handling strategies.
- Served as the SPOC for conducting technical feasibility assessments of Highcharts implementations across the company, ensuring optimal integration.

JiffleNow | Senior Software engineer | Frontend

Jun 2017 – Oct 2019

- Working with the core UI team, responsible for migrating features from the old tech stack to ReactJs and improving overall usability and experience.
- Building Salesforce FE integration to make the product available on the Salesforce App Market.
- Tech-debt improvements and performance improvements that helped the sales team close the deal with AWS and improve the overall application experience and load time of a page by 2-3 seconds.

Oracle | Associate Software Engineer

Oct 2015 – Jun 2017

- Built the product from scratch using JQuery, knockoutJS, requireJs, and Oracle internal toolkit framework(OJET)
- Built an internal poker tool with HTML, CSS, vanillaJS & firebase APIs, as an assignment project.
